

System Integration Specialist / IT-Technician m/f/d

Department: Application Services
Location: Dettenhausen near Tübingen, Germany

elusoft GmbH is a subsidiary of elumatec AG, the leading manufacturer for aluminium steel and PVC profile processing machines. We develop software products for our national and international customers, which efficiently solve complex tasks to enhance the productivity of their CNC machines. Our portfolio consists of eluCad, a user-friendly CAD/CAM software package for the preparation of machining jobs, and eluCloud, our IoT cloud service for monitoring of the manufacturing process. In addition, we support our customers with individual solutions for automation and digitalization of their work processes. In-house support, on-site and online training seminars as well as production support offered by elusoft GmbH ensure that our customers always receive the assistance they require.

Your daily tasks:

As an IT specialist, you handle your assigned tasks diligently. You deploy and support instances of our IoT cloud application remotely or on premise for our international customers. Working closely with the rest of the application services team, you coordinate and document issues, from defects to feature extensions or the various customer requirements. As part of quality management, you reproduce customers' problems and create test cases for reproduction and regression. You help writing installation instructions and feature documentation for our products. You quickly become an expert in your projects, answering questions from your colleagues with different experiences and skillsets.

Demonstrable Experience:

- You've completed an apprenticeship as an IT specialist (system integration) or similar qualification
- You have substantial understanding of general IT topics
- You're interested in modern IT solutions and approach complex problems systematically
- 2 years or more of work experience with comparable tasks
- You should have a high level of written and spoken German and English
- You are quality conscious and approach your work in an independent and structured manner
- You have a driver's license valid in Germany (e.g. B) / Willingness to travel

Desired skills:

- Work experience with SQL databases (SQLite, MySQL, MS SQL)
- Administrative experience with both Windows and Linux systems
- Experience with virtualization / container administration (VMware, Docker, Kubernetes, etc.)
- Experience with cloud infrastructure (Azure, AWS, Google Cloud or similar)

elusoft
